ABOUT ME

I am a passionate ECE student with a strong aspiration to become a DevSecOps Engineer. Currently, I am honing my skills in secure software development using Java, aiming to integrate security seamlessly into the software development lifecycle.

PROJECT EXPERIENCE

ATM LOGIC PROJECT

Core Java

- Simulated basic ATM banking operations in a console-based Java application.
- Aimed to understand real-world banking workflows like deposit, withdrawal, and balance inquiry.
- Strengthened knowledge of core Java concepts such as loops, conditionals, and user input handling.
- Practiced user authentication using account number and PIN verification.
- Gained experience in designing menu-driven programs with a focus on user.

MOVIE TICKET BOOKING PROJECT

Core Java

- Built a console-based application to simulate a movie ticket booking system.
- Aimed to understand user input handling, seat selection logic, and real-time booking flow.
- Practiced phone number and OTP-based user authentication using Core Java.
- Improved problem-solving skills through real-world use case simulation.
- Gained experience in designing a user-friendly interface using basic Java features.

EDUCATION

Government Higher Secondary School , Arani | 2019-20

SSLC

- GPA: 8.7

Government Higher Secondary School , Arani| 2021-22

HSC – Biology Maths Department

- GPA: 8.1

Sri Venkateswaraa College of Technology , Sriperumbudur | 2022-2026

Bachelor of Engineering in Electronics and Communication .

- GPA: 7.6
- Holder of Best NSS Volunteer Award .
- Participated in 6+ National level Technical Symposiums and won few .
